Client:

Taylor Wimpey

Location:

Monmouthshire

Land use:

Residential

Project description

Asbri Transport was appointed in 2011 by Taylor Wimpey's Strategic Land department to promote the allocation of the site as residential through Monmouthshire's Local Development Plan review process.

Asbri Transport produced a Transport Assessment to support the designation of the site as residential, with the provision of 80 dwellings. As part of the Assessment, we undertook a detailed appraisal of the transport network surrounding the development site. This included pedestrian and cycle infrastructure; public transport services and facilities; and the local highway network.

We considered the likely volume of trips generated by the proposed development, and the impact of the proposals on the local transport network. Asbri Transport also designed the proposed site access on to Hereford Road.
